Ethical Manufacturing

Unlike many uniform suppliers, when we say "our factory" we actually mean it! We 100% own and operate our factory in Vietnam, called UMS Vietnam and have genuine relationships with our employees. We know who they are and value their many years of experience and dedication, providing our customers with consistent, high quality uniforms. As proof of our dedication to ethical manufacturing, Corporate Reflection has successfully achieved accreditation in two of the world's leading standards for Social Accountability and the Ethical Treatment of employees, SEDEX and SA8000. We are passionate about our commitment to being a completely transparent, ethical manufacturer of corporate uniforms.
