# **FLEXFIT®**

## **THE FIRST BORN**

The pioneer of stretch-fit caps, Flexfit® caps are the first to be patented with the stretchable technology on fitted caps. This revolutionary invention redefined comfort and style in the headwear industry even to this day.

The brand's story begins in 1994 when the Flexfit® technology was first developed and introduced. The idea of making a stretch fitted cap was unheard of, but welcomed by many. Since then, this iconic yet functional cap has been picked up by top names in urban, lifestyle, and sports markets elevating it to a new level of headwear.

Flexfit® cap was the inspiration behind Flexfit 110®, which features the Flexfit® technology along with distinct styles and functions. Nonetheless, you can never beat the original.
